

Building the sharing economy in Queensland

Two half day workshops — Brisbane, Friday 10th October
Southbank, Griffith University Graduate Centre, S07_1.23 (entrance behind the Ship Inn)

Swapping, exchanging, collective purchasing, shared ownership, co-operatives, co-creation, recycling, upcycling, re-distribution, trading used goods, renting, borrowing, lending, subscription based models, peer-to-peer lending, micro financing, micro-entrepreneurship, social media, crowdfunding, crowdsourcing, open source, open data, user generated content ... the sharing economy offers us ways to reduce our resource consumption, strengthen community connections and build a vibrant, compassionate economy. Join us for a fun, informal day of discussions and mapping out future community based projects.

Building the sharing economy - a facilitated workshop aimed at sharing success stories and mapping out challenges (9.00am to 12.30pm, Room S07_1.23)

Everyone who is already involved in a cooperative or sharing project – and anyone thinking of starting up such organisations or projects – is invited to come along and share their stories of success, and highlight the challenges that we need to tackle together to build the sharing economy in Queensland and Australia. Come along and share your stories, or just come along to listen and learn – everyone's welcome.

Sharing Law Roundtable - a facilitated discussion aimed at building legal and governance support for the sharing economy (1.30pm to 4.30pm), Room S07_1.23

Lawyers, law students and others are invited to discuss how we might create legal and governance support, to help build the sharing economy. One of the ideas we'll be discussing is the creation of a Sharing Law Clinic in Brisbane, to help people with legal and governance advice associated with setting up sharing projects.

Hosted by the Australian Earth Laws Alliance
