

# Building community rights to a healthy environment and healthy economy in Margaret River

Half day workshop - Sunday 23rd November, 1.30 to 4.30pm

Community Resource Centre, Church Gallery, 33 Tunbridge Road, Margaret River

**Please join us for an important discussion about the future of Margaret River's beautiful natural environment and explore innovative ways that community groups, local businesses and the Local Council can work together to assert community rights to a healthy environment and economy.**

In July this year, community groups met to discuss a new model of community organising which helps local people assert their rights to a healthy environment and protect the precious ecosystems upon which we depend.

MRREC, SaveMowenForest, WA Forest Alliance and the Australian Earth Laws Alliance invite environmental and community groups and local businesses in the Margaret River region to join us on Sunday 23rd November, to take these initial discussions further.

The workshop will discuss how we can link existing work to protect our natural ecosystems, with a local law making strategy.

For more information about this approach, please contact Naomi, Jess or Michelle. Or visit this website: <http://www.earthlaws.org.au/what-we-do-australia/asserting-community-and-natures-rights/>

## HOW TO BOOK YOUR PLACE:
